-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-11 and 13-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Prior Art Clair Brothers equipment rack in view of Reiner '013.

The invention is directed to an improvement of the prior art equipment rack of Clair Brothers wherein the slidable door, which recesses into the case, is completely removable and retained by grooves in the sides of the case. Applicants have amended the claims to reflect that the door is removable and has a latch and can be reattached. However, Reiner teaches such a concept for an equipment cart where a door with a latch mechanism is foldable into grooves for storage within the case or completely removable for access to the interior of the case. To have provided the equipment rack of Clair Brothers with such a removable door which can either be stored in grooves on the interior walls or completely removed for ease of access would have been obvious in view of such teaching by Reiner. Note that the racks of Clair Brothers have both front and rear doors. To have made both removable for ease of access would have amounted to no more than an obvious duplication of parts.

2. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied to claim 1 above, and further in view of Peters '847.

To have alternately oriented the position of the door so that it slides into grooves in the horizontal walls would have been obvious in view of such teaching by Peters.

3. Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3727

4. Applicant's arguments, see page 6 of the amendment, filed 11/3/05, with respect to the objections to the title, drawings and 112 rejection of claims 4-6, 11 and 17 have been fully considered and are persuasive. The objections and 112 rejection of the claims have been withdrawn.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents show other cases with door constructions.

6. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.
